

Midwest Archaeological Research Services

Archaeological Field School

17th - 28th, June 2019

The 2019 excavation will be taking place along the northwest riverbank of the Macktown Forest Preserve. Students will have the opportunity to excavate and analyze prehistoric artifacts that were deposited thousands of years ago.

Students will learn:

- Proper Survey Techniques
- Proper Excavation Techniques
- Basic Artifact Identification and Analysis
- Mapping Procedures
- Site Photography
- Northern Illinois Cultural History
- Soil Morphology.
