

**Field Recovery Methods  
for Archaeology and Forensic  
Anthropology  
ANTH 4710**

**May 20-June 14, 2024**

**SAINT LOUIS  
UNIVERSITY**

**Archaeological Lab Methods  
Course**

**ANTH 4720**

**June 17-June 28, 2024**

The 2024 Saint Louis University Field school will take place at the prehistoric chiefdom of Cahokia Mounds, located in the St. Louis metropolitan area near present day Collinsville, Illinois, and is under the direction of Dr. Mary Vermilion [mary.vermilion@slu.edu](mailto:mary.vermilion@slu.edu).

Field school students will receive training in various aspects of archaeological fieldwork, including site survey and mapping, excavation and recording techniques, artifact identification, analysis, processing, and inventory.

The number of students is limited to ensure individual instruction and hands-on experience. Students must provide their own food and transportation to and from the site.

This is a four (4) credit course and is open to both undergraduate and graduate students from any institution. No previous field experience is necessary.

In addition to tuition, there is a \$125 equipment fee and a \$100 deposit (both payable to Dr. Vermilion). The deposit is refundable upon completion of the course. Please contact Dr. Vermilion for additional information ([mary.vermilion@slu.edu](mailto:mary.vermilion@slu.edu)).

This is a two (2) credit course that emphasizes the scientific methods and procedures used by archaeologists to investigate, reconstruct, interpret, preserve, and learn from artifacts, features, and ecofacts. Students learn to process, inventory, analyze and interpret the archaeological record within both regional and site contexts.

The course will be taught at Saint Louis University in the Morrissey Hall Archaeology Lab.

Please contact Dr. Vermilion (314 977-2896) for additional information ([mary.vermilion@slu.edu](mailto:mary.vermilion@slu.edu)).

STUDENTS MAY REGISTER FOR  
EITHER OR BOTH COURSES AT  
SLU.EDU
